## Estimate metric measurements

1. Which is a better estimate for the length of a pen?

5 inches

5 millimeters

2. Which is a better estimate for the length of a fridge?

90 meters

160 centimeters

3. Which is a better estimate for the mass of an orange?

150 grams

150 pounds

4. Which is a better estimate for the volume of a cup?

9 liters

9 milliliters

5. Which is a better estimate for the distance between 2 towns?

35 kilometers

35 meters

6. Which is a better estimate for the volume of a liter of cooking oil?

1 milliliter

1 liter

7. Which is a better estimate for the length of a jumping rope?

304 centimeters

304 kilometers
