

Name: Class:

Create double bar graphs

During a cooking class in Dianna's school, their teacher asked them to write down their favorite fruit juice.

Use the data in the table to complete the bar graph below.

Favorite fruit juice		
Fruit juice	Boys	Girls
Grape	45	35
Mango	25	35
Watermelon	35	50

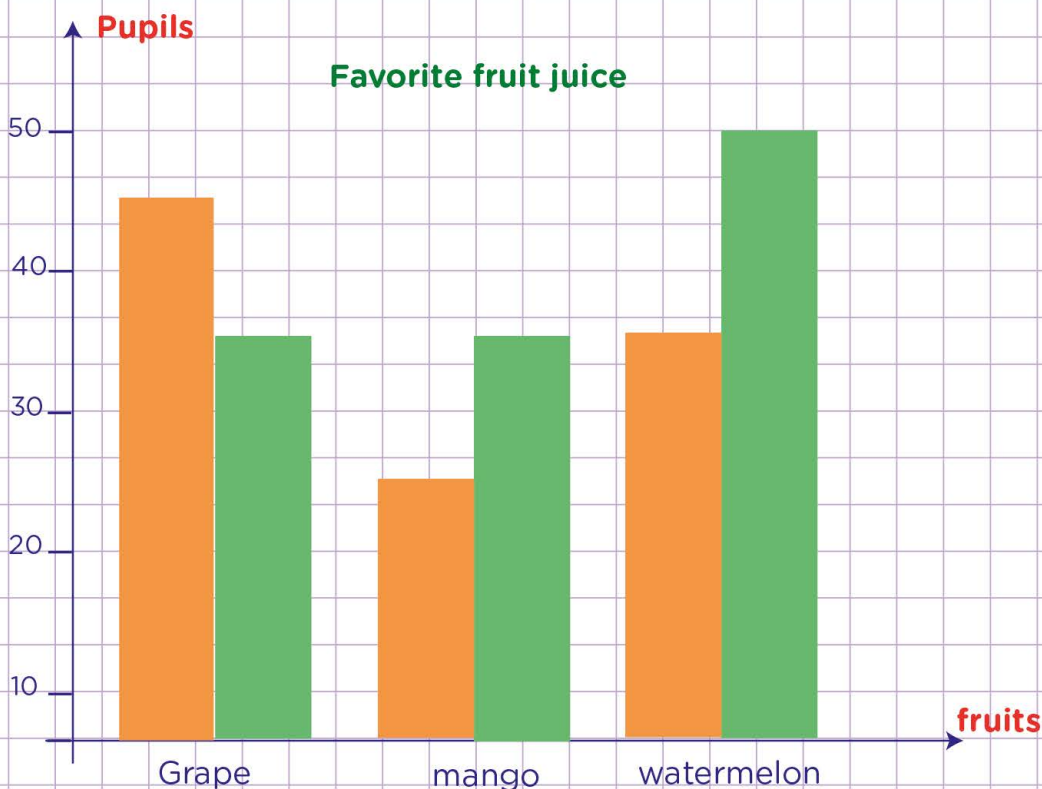

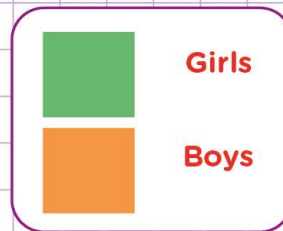

Name: Class:

Create double bar graphs

During a cooking class in Dianna's school, their teacher asked them to write down their favorite fruit juice.

Use the data in the table to complete the bar graph below.

Favorite fruit juice		
Fruit juice	Boys	Girls
Grape	45	35
Mango	25	35
Watermelon	35	50

The missing bars is for watermelon.

Find the watermelon row on the table.

It shows 35 boys and 50 girls,

So, set the height of the missing bars to 50 for girls and 35 for boys.
