

Name: Class:

Choose numbers with a particular quotient

Which numbers in each box makes the following expressions true?

a.

100	20	5	10	22
-----	----	---	----	----

$$\square \div \square = 10$$

b.

4	3	5	77	7
---	---	---	----	---

$$\square \div \square = 11$$

c.

3	9	35	123	891	1,225
---	---	----	-----	-----	-------

$$\square \div \square = 35$$

d.

11	12	25	35	2,450
----	----	----	----	-------

$$\square \div \square = 70$$

Name: Class:

Choose numbers with a particular quotient

Which numbers in each box makes the following expressions true?

a.

100	20	5	10	22
-----	----	---	----	----

100 ÷ **10** = 10 Select the multiples of 10. They are 100, 20 and 10
 Now, pick out the numbers that give you a quotient of 10.

b.

4	3	5	77	7
---	---	---	----	---

77 ÷ **7** = 11 Select the multiples of 77. It is 77
 Now, pick out number that divides 77 to give a quotient of 11.

c.

3	9	35	123	891	1,225
---	---	----	-----	-----	-------

1, 225 ÷ **35** = 35 Select the multiples of 35. They are 35 and 1,225
 Now, pick out the numbers that give you a quotient of 35.

d.

11	12	25	35	2,450
----	----	----	----	-------

2,450 ÷ **35** = 70 Select the multiples of 70. They are 35, and 2,450
 Now, pick out the numbers that give you a quotient of 70.
