

Name: ..... Class: .....

Choose decimals with a particular sum or difference

Choose two numbers from the box to complete the following addition and subtraction sentences.

 1. 

9.8	0.4	5.8	0.6
-----	-----	-----	-----

$$\square + \square = 10.2$$

 2. 

0.5	10.3	7.8	0.1
-----	------	-----	-----

$$\square - \square = 2.5$$

 3. 

5.6	0.1	7.6	0.4
-----	-----	-----	-----

$$\square - \square = 7.5$$

 4. 

5.6	0.1	7.6	0.4
-----	-----	-----	-----

$$\square + \square = 0.5$$

 5. 

9.4	0.1	1.2	0.4
-----	-----	-----	-----

$$\square - \square = 8.2$$

 6. 

2.3	0.1	7.6	8.2
-----	-----	-----	-----

$$\square + \square = 10.5$$

Name: ..... Class: .....

Choose decimals with a particular sum or difference

Choose two numbers from the box to complete the following addition and subtraction sentences.

1. 

9.8	0.4	5.8	0.6
-----	-----	-----	-----

$9.8 + 0.4 = 10.2$

Let's choose any 2 numbers from the box that add to give us 10.2

You see that  $9.8 + 0.4 = 10.2$

So, 9.8 and 0.4 when added make the expression true.

2. 

0.5	10.3	7.8	0.1
-----	------	-----	-----

$10.3 - 7.8 = 2.5$

Let's choose any 2 numbers from the box that when subtracted makes a difference of 2.5

You see that  $10.3 - 7.8 = 2.5$

So, 10.3 and 7.8 when subtracted make the expression true.

3. 

5.6	0.1	7.6	0.4
-----	-----	-----	-----

$7.6 - 0.1 = 7.5$

4. 

5.6	0.1	7.6	0.4
-----	-----	-----	-----

$0.4 + 0.1 = 0.5$
